

The medications listed will affect the results of your testing. We cannot give you advice as to the safety of discontinuing your medications. Best results will be obtained if the medication can be stopped, but **only with the prescribing providers approval**. The number of days needed to be stopped prior to testing is indicated in the column next to the medication name.

Medication	⬮	Medication	⬮	Medication	⬮	Medication	⬮	Medication	⬮	Medication	⬮
Acebutolol	1	Carvedilol	2	Famotidine	1	Metoprolol	5	Resperidone	5	Vistaril	2
